Where We Work

Luxury villas, residential buildings, malls, schools and commercial spaces across Sharjah, Dubai, Ajman and Abu Dhabi.

Our Services

HVAC Systems

Design, supply, installation and maintenance of split, ducted, VRF and central chilled-water systems for villas, buildings and commercial spaces.

Home Automation

Smart lighting, climate, curtains, multi-room audio, CCTV and access control under one intuitive interface.

Plumbing & Drainage

Hot & cold water distribution, sanitary and storm drainage, pump rooms, leak detection and repair.

AC Servicing & Repair

Gas refilling, coil and filter cleaning, drain-line clearing and emergency breakdown response.

Deep Cleaning & Sanitization

Post-construction deep cleaning and disinfection for villas, buildings and commercial spaces.

Home Cleaning

Regular and one-off villa and apartment cleaning with trained, uniformed staff.

MEP Services

Turnkey mechanical, electrical and plumbing packages — coordinated design, authority approvals (DM, DEWA, SEWA, Civil Defence) and handover.

Electrical Works

Power distribution, DB boards, lighting design, earthing and ELV infrastructure to DEWA / SEWA standards.

Low Current & Security

IP CCTV, access control, video intercom, structured data cabling and Wi-Fi coverage design.

AC Duct Cleaning

Supply and return duct cleaning, grille sanitising and AHU/FCU coil cleaning for better air quality.

Water Tank Cleaning

Certified tank cleaning and disinfection with a completion certificate for municipality records.

Annual Maintenance Contracts

Scheduled preventive maintenance, priority response and preferred pricing in one predictable plan.
